Experience

The Schatzlein Group. Following Dr. Schatzlein's retirement from Ascension, The Schatzlein Group was formed to provide advisory services to healthcare companies and investors regarding population health, operating process improvement, physician joint ventures, interoperability and acquisitions. He also offers *pro bono* advice, board service, and operating oversight to organizations whose missions align with his vision for health system reform.

2016- Principal

Center for Medical Interoperability. The Center for Medical Interoperability was a provider-supported 501(c)3 organization that established a reference architecture for medical devices and electronic records, ensuring secure and reliable two-way communication and enhanced data liquidity. Laboratories at its Nashville headquarters tested and certified devices and software against the architecture.
